Hawarden High School
Ysgol Uwchradd Penarlâg

"Learn to succeed" - "Dysgu i lwyddo"

Congratulations!

Three groups of Year 9 girls from Hawarden High School have been engaged in a 12 week STEM Project, Go4Set, in conjunction with Airbus and the Engineering Development Trust (EDT).

These industrial cadets who have worked with professional mentors from Airbus have responded superbly to the challenge and showed themselves to be outstanding ambassadors for the school and STEM education.

A Celebration and Assessment Day took place at Airbus on Monday 8th July where all teams presented their project to judges and set up exhibition stalls in competition with other teams from across North Wales.

Team 'Thinking Eco' (Jasmine, Natasha, Beth, Liv, Millie and Amelia) designed an eco-factory for producing sustainably sourced clothing aimed at tackling the damaging 'fast fashion' industry. Their extensive research, innovation and team work impressed the judges and they were awarded the top prize of Best Overall Project.

'The Breakfast Club' team (Harriette, Katie, Laura, Hannah, Grace and Sophie) and Team 'R.E.M.' (Lexi, Claudia, Molly, Jenny and Molly) were highly commended by judges for their hard work, attention to detail and outstanding presentations.

SPORTS DAY

On Friday 21st June, all pupils in Years 7-10 took part in our annual sports day. The day was a great success with pupils striving to achieve points for their form and house. Congratulations to Tŷ Gladstone who took the house shield from Tŷ Deiniol this year and were crowned the champions. In second place we had Tŷ Ledsham, followed by Tŷ Deiniol and finally Tŷ Glynne. A positive atmosphere and lots of happy faces.

SPORTS NEWS

Year 10 Rounders

Our fantastic Year 10 GCSE girls recently took part in an inter-schools rounders competition, placing 2nd overall. Some excellent skills were demonstrated and the girls had a great afternoon of sports.

Football

Congratulations to Bella who not only represents the Welsh U17's football squad, but also recently won 'manager's player' at Manchester United FC and has signed for their Under 23s next season. Bella has worked hard in all areas of her school life and we are proud that she has been an active member of a range of school sports teams in Year 7-11.

North East Wales Athletics

Some great results from our 4 teams that travelled to Wrexham on 18th June to represent the school in the North East Wales athletics competition. Junior girls placed 5th, middle girls 3rd, junior boys 2nd and the middle boys came 1st!!! Well done to all involved and congratulations to the boys who have gone on to the final held in Brecon!!

Athletics

Congratulations to Whitney Tucker who took the gold medal in the U15 girl's discus at the National championships throwing a massive 23.70m.

Well done to Fin Savage, Tyler Havvas and Whitney Tucker who have been selected for the North East Wales athletics team in July. All three have been selected after beating athletes in Wrexham, Denbighshire and Flintshire!!

Fencing

Once again, Callum is taking medal after medal in the world of fencing! Travelling all over the country, Callum has recently picked up medals in Newham, Durham and Scotland! A very bright future ahead we believe!

SCHOOL HEALTH RESEARCH NETWORK (SHRN) SUMMER EVENT 2019 (NORTH WALES)

Year 9 pupils, Beth and Lilly, were chosen by Flintshire Healthy Schools representatives - Emma McIntyre and Clare Sinnott to showcase their work at the Quay Hotel and Spa Deganwy along with a working group for Mold Alun School.

First we formed a SHRN group consisting of 12 pupils from year 9 to year 11. We analysed the survey and sorted the results into pros and cons (what we needed to improve on and what we could praise everyone on). In our houses, we then designed posters and presentations on the cons we found so that we could use them as resources. We then attended a healthy schools convention where we met Emma McIntyre who helped us to develop our resources. Emma was very impressed on how much work we had put in compared to the other schools; we were so far ahead and she wanted us to get involved more. We were then used as an example for other schools and presented our resources and our ideas to teachers and health coordinators.

Flintshire County Healthy Schools were very impressed with the work by Lilly and Beth and chose them as lead practitioners to present their work to sixty Healthy Schools

coordinators representing sixty schools from North Wales. The house system model devised by Lilly and Beth to educate their peers on health issues raised by the SHRN survey 2017 was presented as an example of good practice to be followed by other schools. After their ten minute presentation, Lilly and Beth were then available to answer questions from the floor on their model.

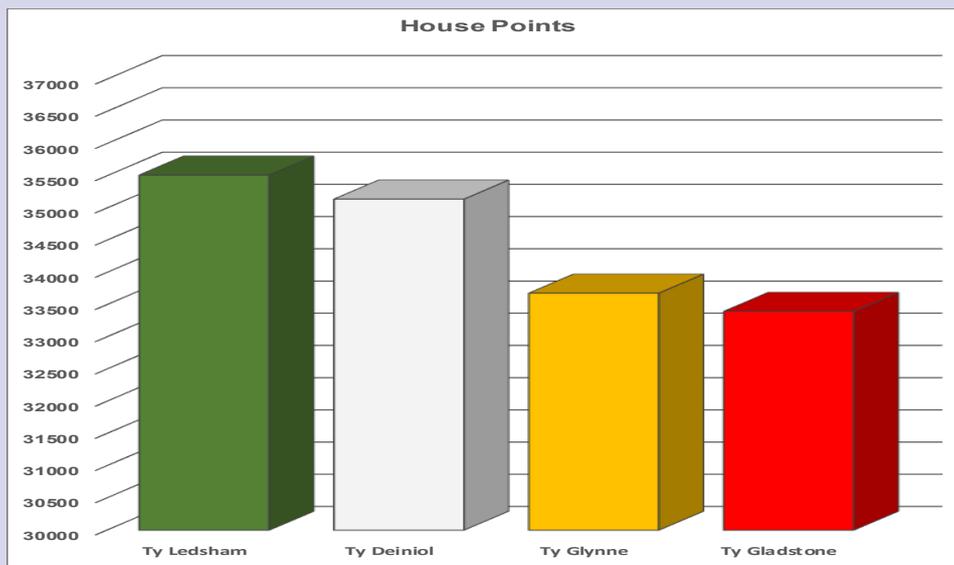

The head of SHRN, Joan Lawrence, complimented the pupils via email: "It was really impressive with so much learning from everyone".

Beth says that she really enjoyed the experience. "It was a good challenge and a great experience. I really enjoyed learning about the importance of pupil's health".

Lilly added that she had found the experience "fun and interesting to learn with other pupils and to compare our results with each other. I also enjoyed learning about the importance of our health and well-being".

Congratulations to our **Year 7 athletics team** who took part in the inter-schools athletics competition on 26th June at Deeside Athletics Stadium. The girls came 2nd and the boys came in at 5th place. The pupils fought hard in their events and we have some promising athletes for the future.

Thirty Year 10 and twenty five Year 11 students have taken part in the Duke of Edinburgh expeditions this term. The gold expedition is due to take place this month with a record number of participants.

Congratulations

Congratulations to Abbie, Amber, and Olivia who have been offered a once-in-a-lifetime opportunity to study at Yale and Harvard Universities this summer. They have been awarded tuition scholarships from the Welsh Government based on their academic potential.

6th Form enrolment will take place between 9.00 am and 11.00 am on GCSE results day Thursday, 22nd August 2019

Accelerated Reader

This year has seen some fantastic engagement with our Accelerated Reader programme. While all pupils in Key Stage 3 take part in the programme, the pupils listed below deserve particular commendation for their committed determination, amazing results and sheer enthusiasm for reading and quizzing throughout the year. Extra special praise should be awarded to our incredible reading 'millionaires'! We are so proud of you all. Remember to keep the reading adventure going over the summer holidays; the Accelerated Reader journey will continue in September.

Mrs Thomas, Mrs Young and Ms Barnard

Many thanks to Mr Dobson, Hawarden High School's chess guru. Students can have fun at lunchtime come rain or shine with this fabulous indoor/outdoor chess set.

FORTHCOMING DATES FOR YOUR DIARY

Wednesday 17th July 2019	End of Year concert
Friday 19th July 2019	School closes for pupils
Thursday 15th August 2019	A Level results day
Thursday 22nd August 2019	GCSE results day
Wednesday 4th September 2019	School opens for pupils

School closes for pupils on Friday 19th July 2019 and opens for pupils on Wednesday 4th September 2019

Year 12 Physicists Visit to CERN

Year 12 visited CERN, Geneva for the 3rd year running this July. CERN is the centre for nuclear physics research based on the Swiss - French border and is the home of the largest particle accelerator in the world. They are at the forefront of particle physics research, trying to recreate the conditions during the Big Bang. The visit is a great opportunity for year 12 to discover where careers in physics and engineering can take them along with learning from the experts some of the content needed for year 13.

Our visit this year started with The Microcosm, which is CERN's exhibition to explain what they do and how they do it. Students can simulate the process of the LHC, learning how the protons are taken from a hydrogen cylinder and accelerated to 99.9999% the speed of light!

As well as being at the forefront of particle physics, CERN has invented many other things that have made the modern world, from the World Wide Web to touch screens and students got the opportunity to visit where the first message was sent via the World Wide Web 30 years ago.

In the afternoon we had our guided tour and we were very lucky to go to one of the main particle detectors called CMS. We managed to go nearly 100m underground to see CMS up close!

Year 9 Physics MAT Workshop

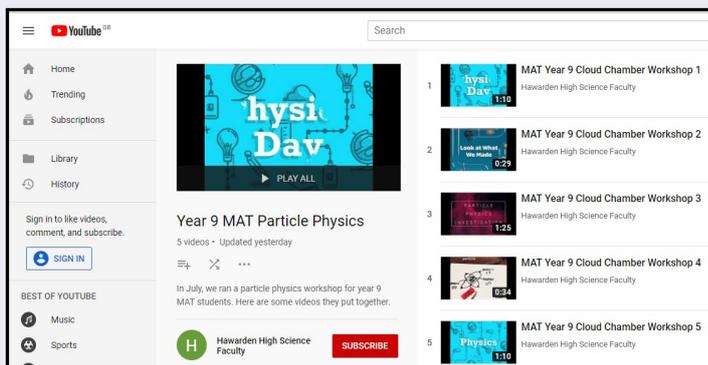

Fresh back from their trip to the particle physics laboratory in Geneva, Switzerland, Mr Lewis and Mr Wilson were inspiring the next group of physics students, running a particle physics workshop for some of the top Year 9 students at Hawarden, Ysgol Y Grango and St David's High School.

During the day students, discovered what particle physics is and how it affects our daily life, using Lego to build protons, neutrons and electrons. They then combined these to make hydrogen and helium, which make up 99% of the matter in the universe. Students then had the chance to build their own particle detectors, called cloud chambers. These use an alcohol vapour to show the paths of ionising radiation given out by a thorium welding rod.

Finally in the afternoon, students used the photos they had been taking all day to create video outlining what they learnt. These are available on our YouTube channel - <https://t.co/ChLfzSDLEe>.

To round off the day, we used the dry ice we had to show some demonstrations - the reactivity of the carbon and what happens as it sublimates back to a gas.

A big thanks goes to KMS Hardrange Ltd, who stepped in at the 11th hour to cut out the aluminium discs needed for the cloud chambers, without these the workshop would not have happened.

COMMUNITY

An element of the National Baccalaureate Qualification (NBQ) Year 10 students have been focusing on their Community Challenge. This meant students had to engage in a community activity for 10 hours. During w/c 24th June and w/c 1st July Year 10 students completed close to 2000 volunteering hours participating in 8 different activities. Many thanks to all charities and organisations that supported the activities and congratulations to the students on being excellent ambassadors of Hawarden High School in the local community.

Ground Works, Knowle Hill

During our community week we went to Knowle Hill, the nature reserve in Buckley. We did a range of activities that would help with the maintenance such as litter picking, tree thinning, stacking logs, bracken bashing and we cleared weeds near the ponds. It was a hard day due to the wet conditions but we learnt a number of different skills such as how to plan and use different equipment.

(George 10GN1)

Bracken bashing

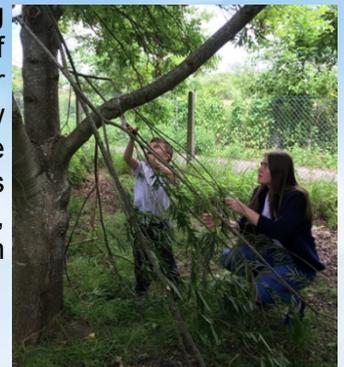

Tree thinning

Sandycroft primary school

Reading with two reception children

For my community challenge I worked with pupils at Sandycroft Primary School with the aim to teach them basic Spanish. I choose to do this as I'm currently studying Spanish for my GCSE. During the year I taught a group of young children basic Spanish over a period of eleven weeks. I then worked with another group of children teaching them on how we are negatively affecting the environment by using plastic. During this challenge I've improved their reading, problem solving and communication skills. (Grace 10DE2)

Den building with a pupil whilst teaching him how we affect the environment

Talacre

Our group decided we wanted to focus on conservation work and do our volunteering at Talacre working with ENI, Presthaven Beach Resort and Flintshire County Council. During this challenge our group planned to volunteer for 10 hours taking part in a range of activities that would benefit the local environment. We created action plans, looked at resources we needed and also assessed the risks we would come across during the activity. We worked in groups of 4-5 during the challenge. I learned and developed a range of skills during this challenge such as community engagement, problem solving, planning, preparation and team work skills. I really enjoyed doing this as it challenged me to do things out of my comfort zone. (Beth 10GD1)

COMMUNITY

Clwyd Special Riding Centre

Our group went to the Clwyd Special Riding Centre on Tuesday 2nd July as part of our community challenge. We had to help out with maintenance work around the grounds such as weeding an old picnic area to make it useable again and also cutting back bushes that had overgrown. We then painted the fences and outdoor furniture that was in the picnic area in our painting suits. We were lucky that the weather was dry and not too warm. During the day I developed a range of skills such as communication, problem solving and team work. Overall it was a good day of volunteering knowing that we were helping a local charity that supports people with a range of disabilities.

(Tom 10GD1)

Penarlag

Our group decided to work with Ysgol Penarlâg On Tuesday 2nd and Wednesday 3rd of July to do our volunteering. Prior to our visit we planned the tasks we would do. We completed a risk assessment which meant we reduced or managed various risks. Some of us painted the sheds whilst others did a litter pick and we improved the bug hotels. On the Wednesday, we painted the benches, and the fences. We also cut back the area of the forest school so it didn't look too over crowded. The boys in the group (Paul and James) fixed one of the wooden trough planters. During this activity we learnt range of skills including innovation, problem solving, planning and communication. We enjoyed our time helping a local primary school. (Jolie 10DE1)

The Dell

Our group worked in the Dell with Mr Chalk for a week. We planned to do lots of different jobs from replacing steps, building an eco-green house and general maintenance work. The work was hard but we enjoyed it as we learned new skills as how to use different equipment and plan a task from start to finish. Here are the new steps we built in the Dell. (Oliver 10GD1)

Painting the troughs

Painting the benches

Cutting back areas of forest

COMMUNITY

Wepre

Bracken Bashing

We decided to support Wepre Park and participate in a range of activities that would benefit our local environment. Before we left, we familiarised ourselves with the tasks ahead and created risk assessments in order to decrease the risk of injury. We also identified our skills beforehand using a skills audit allowing us to review and measure our improvements after the challenge. Personally, I think that I have improved my team work skills. I developed my oral communication

skills when communicating and making decisions within small groups. This has also allowed me to improve my problem solving and critical thinking skills which I believe will benefit me greatly in the future when I am thinking about new opportunities and career paths. (Ellie 10DE2)

Laurel Plant Removal

Cleaning-up the Victorian Gardens

Enterprise Challenge Report

For our enterprise challenge we were addressed with the task of creating a product or idea to be sold at a festival or fair in groups of 6-7. Prior to starting this challenge we had to complete a skills audit, which allowed us to identify our current skills level and also identify which skills that we needed to improve during the challenges.

During this challenge we were tasked with designing a product, and creating business, financial and action plans to show our consideration of all aspects and the possible outcomes of the sale of our product.

The main task was to design and present a presentation about our product to Big Ideas Wales. Our group collectively designed a festival game based on the well-known film Bird Box, which included the completion of tasks whilst blindfolded. Our group chose Guide Dogs as our charity to receive our profit, which as a result will benefit those people who are unfortunate enough to be blind so the aim, drive and result of our game is all linked and actually beneficial. In my opinion, the entirety of this challenge benefited me greatly. I improved substantially on my oral communication, my time management and critical thinking as I was team leader. It gave me more confidence in expressing ideas whilst valuing others' opinions, and improved my confidence interacting with business people. It also taught me the importance of completing work to the highest standards and ensuring it is completed on time. This will all benefit me greatly in the future as it taught me skills that are essential in life.

(Holly 10DE2)

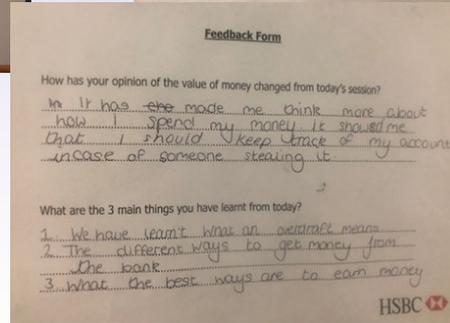

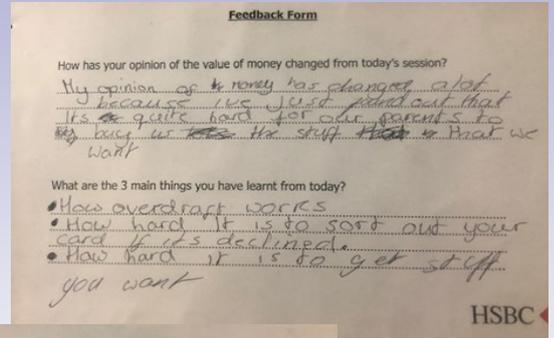

Our presentation to Big Ideas Wales

Developing our idea in class

During the community challenge week, representatives from HSBC bank came into school and worked with a group of Year 10 students. The students had a presentation on key banking terms and the rollercoaster of life events and what banking products they may need along that journey. The year 10s were then given time to plan small group activities to teach the Year 7s about the value of money.

Year 10 received some excellent feedback from the Year 7s.

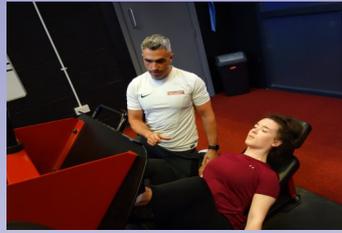

With a growing cashless, contactless money environment, the Year 10s had to design tasks to allow the Year 7s to make sound financial decisions and recognise the value of the money they already had. The activities delivered to the Year 7s included contactless Monopoly, What-if Scenarios, card sorts, quizzes and the Budget Game.

Year 7 MAT Drama Activity

On the 3rd July I was given the opportunity to take part in a MAT Drama workshop with pupils from St David's High School. I was very excited when we arrived at Drama Studio 1 at 9.30am and were told that we were going to be doing a 'play in a day' with Mrs Jarvis. I couldn't believe that in only a few hours we would be performing a play as a whole cast and by 3.00pm we had done just that! As a group of 30 we created a play from scratch based on resilience and the importance of having a growth mind-set. We were trying to show that although things might be difficult in your life or at school and you may not be able to do something, perseverance means that you can do anything you set your mind to do, it just takes practise. Amongst other things we got to use masks, music and spoke as a chorus. Once we had rehearsed all the scenes we had created, we put the whole thing together and the whole performance lasted 45 minutes. Thankfully nobody forgot their lines, everyone performed to the best of their ability and we worked as a team. I really enjoyed the workshop and hope we have the opportunity to do another drama workshop soon. By Sophie (7LD1)

Work experience

Pupils in Years 10 and 12 took part in a week long work experience placement during this summer term. We are grateful to all employers for supporting our work experience programme and providing students with such a valuable learning experience. The feedback that we received from employers was excellent. Well done to all our students who were excellent ambassadors for the school. Pictured here are some of our students in their placements at Immerse Fitness, Hawarden Village Church School, The Barbers Station, The Neuro Therapy Centre, FAB Print, Nuffield Health and Everton FC.

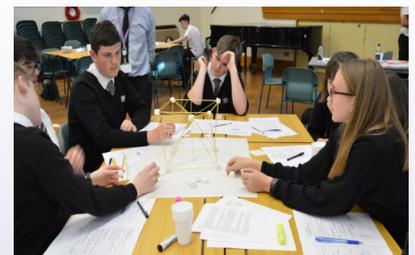

Well done to Nia for researching, designing and producing a fabulous celebration cake for Chester toy shop Weasel and the Bug's 3rd birthday celebration during her work experience at Tab Nab Cakes. The cake has topped 40,000 followers on Instagram.

Sally from Tab Nab Cakes told us that *"Nia had planned all the flavours herself with the middle-tier being a rainbow cake. It was fantastic!"*

Katie from Weasel and the Bug was extremely pleased with Nia's creation and said, *"That cake is out of this world!!!! I can't thank you enough. It's the best thing I've ever seen!!!"*

Team building

Year 10 Students took part in team building activities as part of their Agored Cymru Work Related Learning qualification. Students worked on a project, in groups, to encourage them to strengthen their problem solving and communication skills and promote the importance of planning and working effectively with others.

Three Year 10 pupils took part in Portfolio workshops at Theatr Clwyd.

Nia, Emily and Callum were nominated to participate in this event and following an application and selection process, all three successfully secured a place.

The workshops gave pupils the opportunity to explore and develop new techniques and also work alongside renowned artists and designers in the areas of ceramics, printmaking, sculpture and graffiti art.

An exhibition of the work was on display in the art gallery at Theatr Clwyd.

Royal Society of Chemistry, Schools Analyst Competition

Year 12 students Kate, Mollie and Olivia represented the school at Bangor University in the Royal Society of Chemistry's Schools Analyst Competition. The competition was for students taking an AS level in chemistry. The students carried out a practical problem solving experiment in one of the teaching laboratories at the university.

Parents and Carers

Our Friends and Parents' meetings are informal meetings which are held once every half term, usually at the Glynne Arms in Hawarden Village. We really couldn't achieve what we do without the unseen 'army of help' that exists in our school. You can of course volunteer to be a committee member or you can simply come along to ask questions, voice your opinion or give us your ideas for fundraising events. The Friends and Parents of Hawarden High School is about much more than just fundraising. It exists to provide closer links between home and school. It serves to give parents a voice and it is an excellent way to bring staff, parents and friends together socially in support of the school, working towards a common goal. It is fun too - just ask any of the committee members or helpers.

All parents and members of the school community can get involved even if you only have a small amount of time available. We would love to see you at our meetings on:

24th September 2019

26th November 2019

28th January 2020

24th March 2020

16th June 2020

Follow us on
@hhsfriends

We are grateful to **Welsh Hearts** for providing free training for Parents and Carers in vital emergency and life-saving skills [#firstaid](#) [#CPR](#) [#emergency](#)

Well done to team Quizzy Rascals! Winners of our Hawarden High Family Quiz held on 10th May [@BroughtonWings](#) Sports and Social Club. It was great to see so many pupils, parents, friends, staff and governors having fun and winning prizes.

SPACE CAMP

Students Dannah and Robert from Hawarden High School, together with students from other countries, were given the opportunity to attend the NASA Space Camp in Alabama, USA through sponsorship from Northrop Grumman.

During the visit students were given the chance to ride some of the simulators they had on the site, such as a G Force Simulator, 1/6th gravity chair (which is a chair that simulates how it feels to walk on the moon - we found it surprisingly difficult) and a Multi Access Trainer. Students also took a bus tour around the local area learning about the history of Alabama.

Students were also given the opportunity to listen to two lectures: one given by a man who works in a STEM job for Northrop Grumman and another by Dottie Metcalf-Lindenburger, a woman who has been to space and told us all about it.

Students worked in teams to design and build their own rockets which they were able to launch prior to graduating on the last day.

HISTORY DEPARTMENT NEWS

Looking back over the past year (after all, that's what historians do!), we have been amazed by the effort and dedication that pupils have shown both in and outside of the history classroom. They have been keen to engage and push themselves to get to grips with complex investigations and reflections. Thanks to all pupils for their hard work this year and we look forward to the new term!

In June, Year 7 historians made the (long and bumpy) trip to King Arthur's Labyrinth in Corris and

took part in a workshop about traditional Welsh legends and storytelling. One of the highlights of the trip was the underground boat, which passed through waterfalls and took us deep into the mountain where we listened to the legends of Arthur. It was an unforgettable experience and it is easy to see why it has been named as one of the best attractions in Wales! Behaviour was excellent and the school received praise both from staff members and the public – well done Year 7!

The department is also delighted to announce that we have been awarded the Prince's Teaching Institute Award again this year. The award recognises quality and depth of the curriculum, subject knowledge, diversity of learning experiences and promotion of the subject. We certainly have a lot to celebrate

and look forward to continuing to building on this success next year!

Class of 2019

Best wishes Year 11. We look forward to seeing you at 6th Form in September.

Best wishes and good luck Year 13.

Your opportunity to **FIND OUT ABOUT SIXTH FORM**

SIXTH FORM ENROLMENT
Thursday 22nd August
9am - 11am.

Your chance to talk direct to the Director of Sixth Form Mrs R Southwell and discuss subject combinations and entry requirements.

Induction for Year 12 is Wednesday 4th September 2019

www.hawardenhigh.org.uk
If you can't join us on Thursday 22nd August, e-mail us 6form@hawardenhigh.flintshire.sch.uk
T: 01244 526400

IMPORTANT DATES

15 AUGUST
AS/A2 LEVEL RESULTS DAY
Year 12 AS Results will be emailed to students at 10am.
Year 13 AS/A2 Results will be available to collect from 8:30am in Drama Studio 2. Mrs R Southwell will be available to help with UCAS Queries, Adjustment and Clearing.

22 AUGUST
GCSE RESULTS & SIXTH FORM ENROLMENT
GCSE Results will be available from 9am in the main school hall.
Sixth Form Enrolment will take place in Drama Studio 2, 9am - 11am.
Sixth Form staff will be available to discuss subject options and grade requirements.

04 SEPTEMBER
YEAR 12 SEPTEMBER INDUCTION
Year 12 commence Sixth Form Induction in Drama Studio 2 at 8:40am. Students will participate in tutor group activities and there will be opportunity to make any final subject changes.
AS lessons commence at 11:25am

05 SEPTEMBER
YEAR 13 ENROLMENT
Year 13 commence their A2 studies at 8:40am in Drama Studio 2, where they will receive their A2 timetables and have the opportunity to make any subject amendments. A2 Lessons will commence at 9:05am.

We are delighted to announce that following a rigorous selection process the successful appointments for the Senior Student Leadership Team 2019/20 are Olivia (Head Girl) James (Head Boy) Amber (Deputy Head Girl) Henry (Deputy Head Boy) and Alex (Senior Prefect)

6th Form Centre
