

December 2024

Dear Parent / Carer

It is with pleasure that I present a summary of our annual report to parents on the academic year 2023-2024. The report is available electronically on the school website and each highlighted section below can be clicked upon to provide further information.

In conjunction with [Governors](#) the school has formulated a School Development and Improvement Plan for the academic year 2023-24 which encompasses three strategic priorities.

1. Improve pupils' preparedness for learning
2. Develop and implement an ambitious curriculum
3. Provide excellent feedback to feed forward

As a result of a continuing challenging financial climate, the school ended the financial year with a small negative balance as can be seen in our [budget](#) summary. This requires the judicious utilisation of resources and management of [staff](#) and department capitation. This year the school has once again achieved a full staffing complement and I know that you will join me in extending a warm welcome to the new staff.

The Governing Body were pleased to note the positive progress of the vast majority of pupils in key examination groups and therefore the pleasing outcomes and [destinations](#) of our students. They all deserve huge congratulations for coping with those demands.

The [school prospectus](#) has been published which contains important information such as term dates, curriculum organisation, safeguarding procedures and approaches to the wellbeing of students. I also note the many and varied [extra-curricular activities](#) that are available to students and would encourage participation in these valuable activities.

The school has also prepared an appendix to this report with [other information](#) that the Governing Body is required to communicate to parents on an annual basis.

I hope that you find this report informative.

Yours sincerely

Cllr. Mrs. Joyce Angell
Chair of the Governing Body
